

Douglas Plans To Drop 1200

As part of the planned reduction of work forces announced in August, the Douglas Aircraft Company will release during November and December a total of 1200 employees at its El Segundo Division.

The layoffs are programmed to begin tomorrow, Harold G. Hynd, vice president-general manager, stated.

Of the number to be dismissed, Hynd said 1000 will be workers in the shop, with the remainder office and clerical employees.

Previously announced contract amendments and subsequent realignment of schedules were given as the reason for curtailment of the work force. Total employment at the El Segundo Division, which produces Navy bombers and interceptors, will be reduced to approximately 22,000 after the layoff is given effect, Hynd said.

Salvation Army Loses Necklaces

While several thousand public spirited citizens are raising funds for the community chest, a "meanest man" is somewhere trying to figure out how to turn a gross of cheap, shining Christmas necklaces into cash.

He's the fellow who burglarized the Salvation Army Tabernacle at 4800 S. Hoover St. the other night.

After spending hours digging the safe from the concrete floor the thief took about \$500 in cash and checks, and a package of Christmas presents which the ladies of the Tabernacle had purchased for the little girls of the neighborhood. Lt. Col. William J. Parkins, Salvation Army divisional commander, is confident that the public will replace the \$500 without an appeal, but the colonel is a little worried about the \$17 worth of jewelry.

"We bought the entire supply and there just isn't any more," he explained.

Incidentally — the jewelry was necklaces—10 commandments' necklaces, and one of the commandments is "Thou Shalt Not Steal."

AID-United Givers Gives \$2,000,000

The Community Chest of Los Angeles has received a total of \$2,552,271 through AID-United Givers during the 12 month period ending Sept. 30, according to Charles Luckman, President of AID-United Givers.

Ernest J. Loebbecke, president of the Welfare Federation of Los Angeles, received a check from Luckman which represented the latest distribution of funds to the charity which is conducting its own drive during the current month.

The AID-United Givers' contribution represents the combined gift of over a quarter million workers in the Southern California area. The Community Chests of other nearby areas are also the recipients of contributions through this organization. Since the beginning of AID-United Givers in 1951 over \$10,000,000 has been allocated to the Community Chest of Los Angeles. The Chest is one of ten causes that participate in the AID-United Givers' program.

Services provided by agencies of your Los Angeles Area Community Chest include: 20 hospitals and clinics working to prevent and cure illnesses; 45 youth services that help prevent the growth of juvenile delinquency; 34 child care services that care for dependent and neglected children; 50 family services to assist with difficult social problems; and 17 national services supported in order to reduce the multiplicity of appeals.

More than 750,000 persons in this area utilized the services of one or more of these agencies during the past year.

Rites Start New Hospital For Children

Groundbreaking ceremonies were conducted yesterday for the \$6 million building and remodeling program at Los Angeles Orthopaedic Hospital, which serves handicapped children throughout Southern California.

The program, which will further establish Orthopaedic Hospital as one of the nation's most modern and complete orthopaedic centers, will include construction of a new six-story, 157-bed hospital to replace the old hospital building, plus additions and alterations to the existing clinic building.

Scores of long-time friends of the hospital, as well as high-ranking civic and club leaders, participated in the ceremony. Leading the group of dignitaries in turning the first shovel of earth was Dr. Charles LeRoy Lowman, hospital founder and director of education and rehabilitation department consultant. Following him was George L. Dryer, who served as the hospital's first president and is currently chairman of the board.

Principal speakers were Charles E. Ducommun, president of the Los Angeles Chamber of Commerce, and Ernest J. Loebbecke, president of the Los Angeles Welfare Federation.
